

S. RAVANT VIGNESH

AI/ML Engineer | Generative AI & Multi-Agent Systems

Chennai, Tamil Nadu, India | +91 8124672741 | team.yovaanai@gmail.com | linkedin.com/in/s-ravant-vignesh | github.com/Ravant2005

PROFESSIONAL SUMMARY

AI/ML Engineer with hands-on experience building production-grade multi-agent systems, LLM pipelines, and full-stack AI applications. Proficient in LangChain, RAG architectures, Hugging Face Transformers, FastAPI, and Generative AI. National Hackathon Winner (Rs. 1,00,000) for India's first AI + Blockchain certificate authentication system. Seeking AI/ML Engineer, Generative AI, or AI Product Development roles.

TECHNICAL SKILLS

AI/ML & Generative AI: LangChain, RAG, Hugging Face Transformers, OpenAI API, Prompt Engineering, NLP, Feature Engineering, Multi-Agent Systems, Generative AI, Machine Learning Pipelines, Reinforcement Learning

Programming Languages: Python, Java, C, Solidity, SQL

Full-Stack Development & DevOps: FastAPI, React, Next.js, Node.js, Express.js, Supabase, MongoDB, GitHub Actions, CI/CD, Vercel, Render, APScheduler

Data & APIs: Pandas, NumPy, Web Scraping, ETL Processes, arXiv API, Semantic Scholar API, Statistical Analysis

Blockchain & Web3: Polygon, IPFS, Smart Contracts, ethers.js, MetaMask, SHA-256 Hashing, QR-Code Verification

PROFESSIONAL EXPERIENCE

Founder & AI Engineer — Yovaan AI, Chennai

Jan 2026 – Present

- Designing a privacy-first, memory-preservation AI platform leveraging edge AI and LLM integration, focused on long-term contextual conversational intelligence; currently in active pre-MVP development.
- Architecting the full product stack including LLM model integration, FastAPI backend, and Supabase vector/relational database, building toward an MVP with responsible data handling for sensitive personal memory data.

Technical Instructor & Web Development Intern — Vaayusastra Aerospace, Chennai

May 2026 – Jun 2026

- Trained and mentored 50+ students in AI and aerospace technology fundamentals at Vaayusastra Aerospace, an IIT Madras-incubated startup, while contributing to AI-driven core feature integration for a CubeSat satellite system.
- Built drone flight and aerodynamic calculation simulation tools and deployed them to the company's web platform, where they are used to teach hundreds of students.

Full-Stack Developer Intern — Leaders in Lipstick, Chennai

Apr 2026 – Jun 2026

- Built and deployed the complete corporate website and digital service infrastructure for Leaders in Lipstick, a global behavioral change and ROI consultancy, supporting 2,000+ leaders across 50+ organizations worldwide.
- Engineered an end-to-end full-stack solution covering client onboarding, service discovery, coaching pipelines, and ROI portals, using a scalable React/Next.js front end and Node.js/Express back end under live production timelines.

PROJECT EXPERIENCE

CertiChain — AI + Blockchain Certificate Authentication

- Built a tamper-proof certificate issuance system storing PDFs on IPFS and anchoring SHA-256 hashes on a Polygon smart contract, eliminating forgery and centralized trust across the certificate lifecycle.
- Implemented byte-level tamper detection against IPFS originals with on-chain hash verification, and integrated MetaMask wallet authentication and QR-code validation for zero-trust public verification.
- Awarded 1st Prize at AGAM 9.0 National Hackathon (Rs. 1,00,000); recognized as India's first AI + Blockchain authenticity system, defeating 90+ teams nationally.

Orchestrix — Distributed Multi-Agent Research Platform

- Designed a distributed system of four specialized AI agents (Discovery, Analysis, Summary, Citation) orchestrated via FastAPI with switchable local/distributed execution for scalable research workflows.
- Integrated arXiv and Semantic Scholar APIs for paper discovery, and applied LangChain-based trend analysis, LLM summarization, and multi-format citation generation (APA/MLA/IEEE) with a live React dashboard.

AI Tool Discovery Platform — Autonomous SaaS Tracker

- Built an autonomous pipeline scraping 50+ AI tools daily from GitHub Trending, Product Hunt, and Hugging Face, applying NLP summarization, smart categorization (NLP/CV/Audio), and a custom hype-score algorithm.
- Deployed a production Next.js dashboard with real-time statistics, advanced filtering, and CI/CD scheduling via APScheduler, achieving 99%+ uptime for systematic AI tools tracking.

EDUCATION

B.Tech in Artificial Intelligence & Data Science (CGPA: 8.2/10)

Sep 2025 – Jul 2029

Rajalakshmi Institute of Technology, Chennai

ACHIEVEMENTS & AWARDS

- 1st Prize, AGAM 9.0 International Entrepreneur Summit (Rs. 1,00,000): CertiChain selected as India's first AI + Blockchain authenticity system, beating 90+ teams nationally.
- St. Chavara Exemplar Award, 1st Prize (2023): Represented school at the Preshitha Province-level competition against thousands of students from 20+ schools, winning first place for excellence across sports, communication, leadership, service, and academics.
- State Level English Rank: 10th in Tamil Nadu & 9th in Chennai District — Bharath Institute of English competitive examination.

VOLUNTEER EXPERIENCE

Tech Lead & Organizer — Futurepreneur, Andaman & Nicobar Islands

Nov 2025

- Led and organized the Futurepreneur entrepreneur summit, teaching emerging technologies such as AI, web development, AI tools, and machine learning to 10+ schools, 4 NGOs, and 1000+ students.
